

GREATER LIVINGSTON COUNTY ECONOMIC DEVELOPMENT COUNCIL

# Manufacturer's Directory

The Greater Livingston County Economic Development Council is a public-private partnership comprised of businesses, individuals, and governmental agencies that believe in the importance of controlling the area's economic future by taking a proactive and strategic approach to economic development.

The GLCEDC organized a manufacturing roundtable discussion series comprised of manufacturing leaders who employ nearly 3,000 in the Livingston County area. These discussions resulted in the GLCEDC initiating a partnership with local manufacturing leaders to create a customized training program: Fundamentals of Modern Manufacturing [FMM]. The GLCEDC contracted Heartland Community College to teach the six-week, one hundred hour class, covering topics such as: Manufacturing Processes and Production, Quality and Measurement, Maintenance Awareness, and Safety. The FMM class has 38 graduates with an 82% job placement rating. The FMM class was featured in the 2014 Heartland Community College Annual Report. Additional information about the FMM program is available on the GLCEDC website.

Additional information about the FMM program is available on the GLCEDC website.

Manufacturing careers in the greater Livingston County area offer an opportunity to earn solid wages and offer meaningful upward mobility.

**Based on responses from the following employers the average wage, excluding overtime and bonus, is \$43,488.**

- Anthony LiftGates
- ATR Recycling
- Exact Packaging
- Fabral
- Interlake Mecalux
